

Dallas, 6

My Favorite Things:

Playing outside on the playground, building with legos, playing cards/games, coloring, music, Star Wars, running, and swimming.

Things I do not like:

Sitting in one place for a long period of time, abrupt transitions, and not being able to do what I want sometimes.

If I could visit any place on Earth:

I would like to go to Disney because it has many great things!

What I want in a family:

Two parent home who want to be involved. I would like a family that is active and plays legos with me. I would also like a dog (supervision will be needed). I would like a family that celebrates Christmas and Halloween.

What I want families to know about me:

I like to be active and I can be helpful! I really enjoy making my bed, loading the dishwasher, and sorting laundry. I like Pete the Cat, love blankets, and my younger brother means a lot to me. I like to travel and I have been to New York City and enjoy spending time on boats. In school, I really like Math because I enjoy doing math sentences. Funny movies and when dogs do silly things make me laugh.

What we want families to know about the youth:

A family who can provide Dallas with structure, routine and being held accountable. He is very social and has a great memory. A family who is open to being part of a team and is able to advocate for Dallas's needs. It is important for Dallas to remain contacted with important people in his birth family.
